PLATFORM

GLOBAL DUMPERS LIST 2014

List of all ships dismantled over the world
in 2014 (1026 ships)

INTRO

For several years now, the NGO Shipbreaking Platform, a global coalition of non-governmental organisations demanding safer and cleaner ship recycling worldwide, has been compiling lists of end-of-life ships sent for breaking every year. In 2012, the Platform compiled for the first time, next to the annual European companies sending end-of-life ships to beaching yards in South Asia, a complete list of all ships sent for breaking all over the world. Below is the complete list of all ships for 2014.

Of the **1026** large ocean-going vessels that were scrapped in 2014, 641 were sold to substandard beaching facilities in India, Pakistan and Bangladesh. Whereas the number of dismantled ships dropped from 1213 dismantled ships in 2013, the number of beached ships has remained as high, from 645 in 2013 to 641 in 2014. A bigger proportion of all ships dismantled was thus sent to the beaches last year (62,5%) compared to 2013 (when 53% of the total were beached). Globally, the proportion of beached vessels has increased, and the total number of beached vessels has remained more or less the same.

More information, including this list in an Excel (.xls) format, and a separate list for European ships (including Norwegian-, Swiss-, and Icelandic-owned, thus EFTA), are available on our website www.shipbreakingplatform.org.

| Country of the beneficial owner | Beneficial owner of the ship | Name of ship | IMO number | Last flag | Flag changed for breaking | Date of change | Destination city | Destination country | Beaching date | Built in (y) |
